Experience

Flutter Developer

January 2024 to 2025 Present (1 Year)

Bitlogicx

Projects

- **Bikee.** The Bikee courier app revolutionised local deliveries with its efficient and eco-friendly approach.
- **Go and DO.** I redesigned the app from an existing project and updated each component's functionality to the latest Flutter SDK.
- **ShoppingBabe:** I managed product pricing and integrated the payment system in this app.
- **Baccarat Predictor Game:** I built this app from scratch, incorporating features like guest accounts, Google Sign-In, screen lock, in-app purchases and API Integration.
- **Bigway:** I Integrate APIs in Both **Bigway and Parent, driver** I design the App with Google Map Integration.
- **Roulette App:** I built this app from scratch, incorporating features like guest accounts, Google Sign-In, screen lock, in-app purchases, and API Integration.

Junior Flutter Developer

Xiist

January 2023 to 2023 (6 Month Night Shift)

Projects

- **Ethnic Home:** I built the app from scratch with features like basic sign-in, sign-up, Google sign-in, displaying investment posts, managing investments, and showing graphs.
- **Cabster:** I added a payment system, redesigned the app, and updated the components to use the latest Flutter SDK.

- **Gamers Super Vpn:** I designed the app.

Education

Bachelor in Software Engineering, Superior University

2024 with **(3.0 CGPA)**

Extra Activities

- Learn About Cyber Security.
- Learn about Node js.
